

LEADING IN THE DIGITAL AGE

Digital Mindset Session for Senior Leaders

This Digital Mindset Session for Senior Leaders is designed for directors, associate directors, heads of service, service managers and equivalent roles across health and social care organisations (including social work, housing, charities and the third sector). No technical background or experience is required, this session will focus on the mindset required to lead in the digital age.

.....

This session aims to demystify the concept of a digital mindset, helping you to understand how you can approach issues and opportunities through a digital lens and the benefits of doing so. It will explore case studies of user-centred transformation, an introduction to Scottish Approach to Service Design, what digitally empowered organisations look like and key questions to ask within your own departments and teams.

Part 1:
Video presentation
(45 mins - recorded)

Part 2:
Expert-led, online,
interactive session
