## Index to Kingseat Hospital Admissions, 1904 - 1914

---

This index shows patients admitted to Kingseat Hospital between 1904 and 1914. The index shows the reference number of the volume the entry can be found in, admission number, the forename and surname of the patient, their age, and any remarks – this is usually if there is another name by which they were known.

The index is set out in chronological order by date of admission, beginning on 16th May 1904 when the hospital opened, and goes up to 31 December 1914. This is the latest date which can be included under the Data Protection Act. The index will be added to each year to reflect the most recent date available.

If you wish to find out more about an entry, please email [grampian.archives@nhs.net](mailto:grampian.archives@nhs.net) for further information.
